

Aoyue 850A+ SMD Rework Station Specifications

Introducing the Aoyue 850A+ SMD Rework Station

The Aoyue 850A+ SMD Rework Station is a top-tier choice for professionals in chip IC removal and mobile repair, offering precise and efficient soldering.

Key Features and Specifications:

Model: Aoyue 850A+ SMD Rework Station (Alternate Model: Quick 850A SMD Rework Station Hot Air Gun)

Application: Ideal for chip IC removal and mobile repair

Temperature Control: Conical tip, 100°C to 550°C range

Power Specifications:

- Operating Voltage: 210-240V
- Power Consumption: 600W max
- Current: 3A
- Frequency: 50/60Hz

Heating Element: Durable metal heating core

Pump/Motor Type: Diaphragm pump, 23 liters per minute air capacity

Dimensions: 188mm (W) x 127mm (H) x 244mm (D)

Weight: 3.7kg

ESD Protection: Ensures safety in static-sensitive environments

Manufacturer Information:

Aoyue 850A+ SMD Rework Station Specifications

Brand: Aoyue Tongyi Electronic Equipment Factory

Country of Origin: China

Model Number: 090304652

Altools Services is proud to be the importer, distributor, and seller of the Aoyue 850A+ SMD Rework Station. This versatile and powerful tool is perfect for both professional and hobbyist electronics repair. Its high-quality build and advanced features make it an essential addition to any workshop, ensuring precise and safe soldering operations.
